

## Let Us Handle Your Payroll Emergencies

The most important part of running a business is arguably issuing your employees' paychecks on time and correctly. When setbacks do happen such as staff leave or unexpected resignations, and you need a last-minute payroll service to bridge the gap, count on HR Knowledge's proven experience to ensure your payroll needs are fully taken care of.

We provide clients with short-term payroll administration services to keep your business running smoothly. Our payroll staff are familiar with all major payroll vendors.

We quickly schedule a payroll analysis to review the nuances of your payroll, payroll schedule, and we review prior payroll registers. We will also review the new hire, employee change and termination processes. Once full administrative access is provided, HR Knowledge creates a comprehensive payroll processing note, enabling us to take over this process.

HR Knowledge is renowned for being accurate, efficient, timely, and secure, and we are happy to work as an interim payroll service with as little as 24 hours of notice.

### Managed Payroll Processing
