

Best-in-Class Technology

HR Knowledge's benefit technology solutions allow you to better connect your employees to their benefit options and make the enrollment process easier for you and your organization. With our employee self-service technology, your employees can enroll for benefits via computer or mobile device, make changes to their personal records, and access their benefit information.

Currently hiring? Reduce onboarding time by having your new staff onboard themselves and enroll for benefits, using our self-service option.

You'll also get live email and phone support with our team of benefits experts, and compliance updates to keep you informed of changes to benefit policy.

**Online Open Enrollment**

HR Knowledge eliminates tedious paperwork required by renewals. We provide your organization with a dedicated broker to help plan your open enrollment strategy. Your staff will be able to self-enroll online, and add or remove dependents as necessary.

**Online New Hire Onboarding**

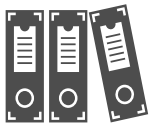

Our online onboarding process allows your new hires to quickly and easily learn about your company's benefit offerings as well as enroll for benefits using a computer or mobile device.

**Life Event Changes**

Need to add a life event to your benefits plan or make any other changes? Simply log onto your company's benefits portal and make the updates.

**Live Phone and Email Support**

Our team of Client Account Managers is always available via email or phone to assist you with your HR needs.

**Broker Resource Library**

Have questions about your benefit plan or want to know more about any benefit-related issue? Gain access to HR Knowledge's broker resource library.

**Concierge-Level Service**

Enjoy our unparalleled "concierge-level" client service, which helps make HR Knowledge a leader in our industry.
