

Empower Your Employees with Information 24/7

Automate and streamline your new-hire onboarding process, and empower your employees with information 24/7! Through the power of technology, we can improve the efficiency of your HR operation, and dramatically simplify the way your organization hires and onboards new employees.

Before their first day of work, your new hires can self-onboard to your payroll and benefit

plans, and even acknowledge company policies. Current employees can access their personal data and update their contact information from a computer or mobile application.

Our employee self-service feature will reduce the administrative workload for your HR and payroll and give employees easy and continual access to their payroll and benefits information-anytime, anywhere.

New Hire Onboarding Services

New hires can self-onboard from any computer before their first day of work.

Eliminate Paper

There's no need for paper benefit elections and manual data entry for your payroll to benefits and more.

There's an App for That

Empower your employees and managers with 24/7 access to their information through your HRIS system via a computer or the mobile application.

Cloud-Based I-9 (Optional)

Accessible via desktop, laptop, smartphone, or tablet, our Form I-9 solution helps streamline the verification process and reduces compliance risks.

Benefit Enrollment

Your employees can enroll themselves and dependents into benefit plans online. Our solution supports adding and managing new employees to the benefit plan, and provides call center support to employees and their families.

Concierge-Level Service

Enjoy our unparalleled "concierge-level" client service, which helps make HR Knowledge a leader in our industry.
